

TECHNICAL DATA SHEET	
Test Items	Results
Product Name	Acoustic Panel
Material	Medium density fiberboard &Polyester
Surface treatment	Technical wood veneer
Size	400x2700mm
Thickness	21mm
Weight	8kg
Sound absorption coefficient(felt)	0, 5
Formaldehyde (MDF)	Carb P2
Thickness expansion rate of water absorbing(MDF)	8, 5%
Package specification	2740*440*56mm
Package quantity	2pcs
Installation method	Screws Installation or mounting glue
Clean	Clean with a vacuum cleaner or a dry cloth,not with water
Application scenarios	Conference rooms,recording studios,concert halls,etc
