

TECHNICAL DATA SHEET	
Test Items	Results
Product Name	Acoustic Panel
Material	Medium density fiberboard & Polyester
Surface treatment	Technical veneer
Size	400x2700mm
Thickness	21mm
Weight	16.33kg
Sound absorption coefficient(felt)	0.3
Formaldehyde(MDF)	Carb P2
Thickness expansion rate of water absorbing(MDF)	9.4%
Package specification	2730*852*1260mm
Package quantity	2pcs
Installation method	Screws Installation or mounting glue
Clean	Clean with a vacuum cleaner or a dry cloth, not with water
Application scenarios	Conference rooms, recording studios, concert halls, etc
